TO : Mr. Lawrence R. Houston
General Counsel

FROM : Law Division

SUBJECT: Invention by Employees of CIA

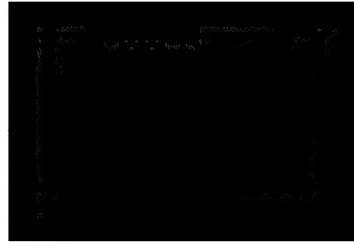

DATE: 25 January 1951

OGC HAS REVIEWED.

1. Enclosed is a draft of suggested Administrative Instruction to be issued in compliance with Executive Order 10096.

2. As I indicated in our conversation the other day, this is probably the best we can do under the present circumstances. Since Army, Navy, and Air Force have considerable patent law talent at their disposal, it seems to me that we should follow their motions, but until they come to some accord we will have to tread water.
